– Technical Aspects of AI –

Lecture 1: Supervised Learning

Jana Lasser

Research group

Complex Social & Computational Systems (CS)²

IDEa_Lab

Das Interdisziplinäre Digitale
Labor der Universität Graz

Overview of today's lecture

- 1.1 What is Artificial Intelligence?
- 1.2 How does supervised learning work?
- 1.3 Algorithms for supervised learning

Artificial Intelligence: A Modern Approach (1.1, 1.2, 1.3)

Artificial Intelligence: A Modern Approach (19.1 & 19.2.)

Videos: [Bayes' theorem](#), [K nearest neighbours](#), [Decision Trees](#)

[content for further learning]

Learning objectives

- Deconstruct problems with *computational thinking* to solve them with algorithms.
- Know applications and examples of supervised learning.
- Know algorithms for supervised learning.
